## AMERICAN GOVERNMENT, HONORS

This course introduces students to the organization and principles of American Government. Roughly two-thirds of the course covers “facts” about the institutions and history of American Government, while the remaining third introduces a couple of “theories” that help us explain some political phenomena.

My section is organized around historical developments and themes from the Federalist Debates. After engaging in our own debate, we will investigate whether the fears of the Anti-Federalists have come to pass. We will also address questions such as why is our government organized the way it is? Why have political candidates traditionally appeared moderate? Do voting rules in Congress affect political outcomes, and if so, how? Does our system guarantee that every citizen's interest is equally represented? If not, what does this mean for democracy? Applying themes from the Federalist debates should energize the topics and give you an understanding of one of the most important debates in American political history.

### Polling

Occasionally we will use Google Forms for in-class polling. I won't know who answered a question nor record individual responses. Google Forms shows us group opinion in real time. If the QR-codes don't work, use this <https://forms.gle/2jbWtCLQ5xunWTXg9>.

### Assignments

You will be assigned a debate, a mid-term exam, an assignment on political parties, a term paper, and an in-class final exam. I expect students to attend all classes and assume that you are mature enough to understand what happens when you miss a class. Ask another student for notes if you miss a class before asking me for help. All assignments can be downloaded and uploaded using [ELC](#).

Although I generally think of 90-100 as an A, 80-90 as a B, etc., your overall grade for the course will be based upon the following scale:

		A	92 or above	A-	90-91.99
B+	88-89.99	B	82-87.99	B-	80-81.99
C+	78-79.99	C	72-77.99	C-	70-71.99
D+	68-69.99	D	62-67.99	D-	60-61.99
F	59.99 or below				

- **Federalist Debates.** Shortly after the course begins you will be divided into groups of three to four students and assigned to one of three debates. With the members of your group you will prepare to debate one side of a Federalist / Anti-Federalist issue. These debates will allow you to understand the philosophical theory behind the United States Constitution and some important issues in democratic theory. You will be graded on a five page summary of your party's position on the issue (due the first day of the debates), a presentation before the class, and your response to questions from the audience. These debates can be very entertaining, but they also represent 15% of your final grade. Your groups should provide great study partners for the exams and a source of notes if you miss class. **Students who are absent during the presentation of their debate will be required to turn in a 5 page paper in lieu of their presentation. The paper will summarize the philosophical tradition of the entire Federalist/Anti-federalist debates and be due in the class immediately following the student's assigned debate. This is in addition to the 3-4 page written assignment you are required to submit. Late penalties apply.**

- **Legal Precedent.** Legal precedent makes interpretation of the law predictable and consistent. To help you understand this very important facet of the American legal system, you will be assigned to one of five Supreme Court cases as the person in charge of either the legal summary, majority opinion, concurring opinion, or dissenting opinion. In addition to summarizing your findings, you and the other students assigned to the case will lead classroom discussion. You will receive a 2 (out of 2) for a serious and accurate discussion, a 1 for an attempt, and a 0 for not participating.

- **Term Paper.** 30% of your grade is reserved for a term paper on one of three essay prompts. Regardless of the essay you chose, you will develop your essay in three stages, each worth a different amount of your overall grade. In the first stage, you will write a research-based term paper with the assistance of AI tools, such as ChatGPT, but you will not rely solely on that tool (5% of your overall grade). In the second stage, you will provide feedback on a paper written by one your peers (10% of your overall grade). And in the third stage, you will submit a polished research paper that incorporates peer comments and meets the standards set out in the assignment. Please get started early so you have plenty of time for research.

- **Exams.** The final part of your grade will be a mid-term and a final exam. Both exams will contain multiple choice, fill in the blank, possible problem solving, and essay type questions worth 25% each. The idea is to give you multiple types of questions to evaluate your understanding of the material, not your aptitude for a particular type of test question. Since the lectures and the readings sometimes cover different material, please be prepared to answer questions from *assigned* readings that were not covered in class. Questions from readings *will* be on the exams. The final is *not* cumulative.

<u>Assignment</u>	<u>Date</u>	<u>Percent of Grade</u>
Federalist Debates	Sept 4-11	15%
Legal Precedent	Oct 2-7	5%
Midterm	Oct 14	25%
Term Paper		
• Initial Submission	Oct 30	5%
• Peer Review	Nov 6	10%
• Final Submission	Nov 23	15%
Final Exam	Dec 9	25%

#### Make-ups

Assignments and term papers require a fair amount of analysis time. Please plan ahead to avoid turning them in late. **Late assignments will be lowered one letter grade for every day they are late.** Grades are lowered for every *day* they are late, not every class day they are late. If an assignment is late, it would be a good idea to upload it on ELC then e-mail me so I know it is posted. Do this as soon as possible to avoid any unnecessary late penalties.

If you miss the midterm for a good reason, pre-approved by me, you will be allowed to complete a make-up exam on Thursday, October 16 at 4:00 pm, meeting in Baldwin 408. Make-ups are not available any other time or date. The make-up is more difficult than the regular exam and should be avoided.

#### AI Software

With the exception of the term paper assignment, the use of artificial intelligence (AI) tools like ChatGPT, Copilot, or similar generative AI systems is strictly prohibited for any part of an assignment, including brainstorming, writing, or editing. This policy facilitates your learning of the material in this course.

#### Required Texts

Reading assignments vary in length. When you are assigned a short reading you may want to read ahead so that you don't fall behind in the future. Readings come from three sources: 1) the Jillson text book (purchase), 2) the Bullock and Gaddie book on Georgia Politics (select chapters on ELC), and 3) additional readings (linked below or posted on ELC). Unless otherwise designated, readings are required. I will test you on some of the readings not discussed in class.

Please read the entire assignment once (at least superficially) before coming to class. Remember, if you work hard and complete all the readings, this should be a very rewarding class. Allow two hours of reading for every hour of class time, except during the exams. The Jillson book can be purchased from the campus book store (and various off campus bookstores).

1. Jillson, Cal. 2025. *American Government: Political Development and Institutional Change, 13th Edition*. New York: Routledge Press (purchase, used books work as well).

2. Bullock, Charles S and Ronald Keith Gaddie. 2011. *Georgia Politics in a State of Change: Fourth Custom Edition for the University of Georgia*. New York: Pearson (select chapters will be posted on ELC).

3. Additional readings, linked below or posted on ELC.
