I. Course Description:

Government and politics impact our lives in many ways. Some are obvious, others almost invisible. The primary goal of this course is to introduce you to the scientific study of politics using the United States as the primary example. To this end the course is designed to provide you with an historical and conceptual background of politics in the United States as well as a scientific perspective for understanding the relationships between different levels and branches of government, the operation of these political institutions, and how citizens interact with government in the United States and the state of Georgia.

By the end of this course you should be able to:

1) Understand the constitutional foundations of United States (U.S.) government and how the Constitution sets the stage for political activity in the U.S.
2) Identify the different government institutions in the U.S., explain how they interact with each other and The People and how these interactions have changed over time.
3) Reconcile the opinions of the public and conduct of our elections with the governing actions taken by our representatives in government.
4) Evaluate the performance of one of your representatives in government and offer a strategic policy recommendation.
5) Understand how our humanity influences democratic politics in the U.S. and abroad.

We have some amazing resources for you here at UGA. For testing accommodations please contact the Disability Resource Center (DRC) as soon as possible. John Lennon once said, “Life happens while you’re busy making other plans.” Attending class is critical for your success in this class. Participation is a significant portion of your grade and there is a significant amount of course content that we will cover in our class meetings. Absences will be excused for legitimate reasons (and I am a reasonable human being).

If you have any questions about what constitutes cheating, academic misconduct, or plagiarism, please examine the university policy and/or ask the instructor.

If a problem or emergency arises that prevents you from attending an exam or coming to class, you should contact me (Dr. Glas) as soon as possible.
