

PADP7120: Data Applications in Public Administration

Fall 2021, Section 44502

Classroom: Caldwell Hall 306

Thursdays 3:55PM-6:45PM

INSTRUCTOR

Dr. Alex Combs

Email: Alex.Combs@uga.edu
(mailto:Alex.Combs@uga.edu)

Office Location: Baldwin Hall 278

Office Hours: By appointment

"We should have aggressive and wild ambitions that are only anchored by plans, not by doubts."

- Stacey Abrams

"Plans are worthless, but planning is everything."

- Dwight D. Eisenhower

COURSE DESCRIPTION

Applications of data analysis techniques to problems in public management and policy. Special attention is devoted to instilling familiarity with software packages to solve public sector problems. Topics involve the entire data analysis workflow, including the collection and cleaning of data, description of data numerically and visually, and drawing conclusions from statistical inference using cross-tabulation, difference of means testing, and regression analysis.

COURSE OBJECTIVES

This course contributes toward the following MPA program competencies: 1) To participate in the Public Policy Process, 2) To analyze, synthesize, think critically, solve problems, and make decisions, and 3) Communicate with a diverse workforce and citizenry. By the conclusion of this course, students should be able to:

1. Analyze policy alternatives using quantitative tools to evaluate decisions and explain potential ramifications for diverse constituencies
2. Use various methods and analytical tools to analyze and interpret data to provide effective reasoning for decision making and policy creation
3. Concisely inform the public and other stakeholders of decision and initiatives through the presentation of data and research findings
4. Produce policy papers involving the synthesis of information, evaluation, and analysis of critical questions or problems currently facing the field of public administration and policy
5. Execute specific strategies to enhance equity within and representativeness of the public workforce to ensure all people with a government's jurisdiction are well served

TOPICAL OUTLINE

Measurement validity & reliability

Data description

Data visualization

Regression analysis

Causation & bias

Sampling

Surveys & evaluations

Forecasting

Panel analysis

REQUIRED COURSE MATERIALS

There is a wealth of free material teaching statistics and statistical software. All required materials for this course are free. All readings and materials except software will be provided via eLC. Students who plan to use their own computers need to download the following software:

- R
- RStudio

Written instructions for downloading R and RStudio are available on eLC. Video tutorials are easily accessible on YouTube.

COURSE POLICIES & ASSIGNMENTS

Disclaimer

The course syllabus is a general plan for the course; deviations announced to the class by the instructor may be necessary.

Attendance & Late Work

Attendance is strongly encouraged but not required. In general, absences do not need to be excused. All graded assignments can be completed online without attending class meetings. However, multiple assignments are designed to be completed in class to lessen the workload, and class meetings will - in theory - facilitate successful completion of other assignments. Assignment deadlines will be enforced. Late work without any known, acceptable excuse will receive no credit. If circumstances arise that prevent you from completing work on time, let me know as soon as possible, and I will work with you to arrive at a solution that is as fair to you, me, and other students as possible.

R Chapters

Most weekly reading assignments will involve an R Chapter. Each R Chapter provides instructions on how to apply concepts and skills in R that are relevant to that week's topic, then asks you to answer a few practice questions. R Chapters will be graded pass/fail based on whether you submit a good faith effort prior to the class period to which the R Chapter was assigned. The primary purpose of R Chapters is to provide you an opportunity to self-evaluate your understanding of R. Once you upload your answers, sample answers will become available at [R Chapter Answers](#) (/d2l/common/dialogs/quickLink/quickLink.d2l?ou=2358797&type=content&rcode=usgq-20280318). You are encouraged to compare your answers to my answers prior to class. If your answers deviate from my own and you do not understand why, ask a question about it during class.

R Labs

Most class meetings will include a lab component that covers applied skills in R. I will provide instructions, prompts for you to practice the skill, and assistance when needing to troubleshoot. R Labs will be graded pass/fail. If you attend class and participate in the R Lab, you will receive full credit regardless of accuracy and completeness. If you choose not to attend class, you are welcome to complete R Labs for full credit if done accurately and uploaded to eLC by 12PM of the Sunday following class.

Problem Sets

Students are expected to complete four problem sets during the semester. Problem sets will include a combination of conceptual and applied questions that require the use of R. Up to three students may work together on problem sets. Groups are encouraged to work together synchronously rather than remotely on separate parts. If you are worried about your capacity to learn R, I encourage you to partner with those who consider learning R a potential strength of theirs as long as all agree each member can make a sufficient contribution.

Exams

Students are expected to complete a midterm and final exam during the semester. The exams will focus entirely on concepts covered in the course, not use of R. The exams will evaluate students on their understanding of theory and correct practices regarding data description and inference, as well as their ability to interpret and communicate statistical information and make decisions.

DataCamp Chapters (Optional/Extra Credit)

Students of this course receive a free account to [DataCamp](https://www.datacamp.com) (<https://www.datacamp.com>). DataCamp contains numerous interactive exercises that can help you build conceptual understanding of statistics and skills in R. The course schedule provides a list of DataCamp chapters that are relevant to the topics covered each week. The DataCamp chapters are optional but worth extra credit. To see how this extra credit will be applied, go here: [DataCamp Chapter Logistics](https://d2l.com/common/dialogs/quickLink/quickLink.d2l?ou=2358797&type=content&rcode=usgq-18629252) ([/d2l/common/dialogs/quickLink/quickLink.d2l?ou=2358797&type=content&rcode=usgq-18629252](https://d2l.com/common/dialogs/quickLink/quickLink.d2l?ou=2358797&type=content&rcode=usgq-18629252)).

Academic Honesty

As a University of Georgia student, you have agreed to abide by the University's academic honesty policy, "A Culture of Honesty," and the Student Honor Code. All academic work must meet the standards described in "A Culture of Honesty" found [here](http://honesty.uga.edu/) (<http://honesty.uga.edu/>). The Academic Honesty Policy can be found [here](https://honesty.uga.edu/Academic-Honesty-Policy/) (<https://honesty.uga.edu/Academic-Honesty-Policy/>).

Accommodations Due to Disability

Students who seek special accommodations due to a disability should contact me during the first week of the semester or as soon as the need for the accommodation is discovered. I will work with the Disability Resource Center (706-542-8719, <http://drc.uga.edu/> (<http://drc.uga.edu/>)) to provide appropriate accommodations.

Mental Health and Wellness Resources

If you or someone you know needs assistance, you are encouraged to contact Student Care and Outreach in the Division of Student Affairs at 706-542-7774 or visit <https://sco.uga.edu> (<https://sco.uga.edu/>). They will help you navigate any difficult circumstances you may be facing by connecting you with the appropriate resources or services. UGA has several resources for a student seeking [mental health services](https://www.uhs.uga.edu/bewelluga/bewelluga) (<https://www.uhs.uga.edu/bewelluga/bewelluga>) or [crisis support](https://www.uhs.uga.edu/info/emergencies) (<https://www.uhs.uga.edu/info/emergencies>). If you need help managing stress anxiety, relationships, etc., please visit [BeWellUGA](https://www.uhs.uga.edu/bewelluga/bewelluga) (<https://www.uhs.uga.edu/bewelluga/bewelluga>) for a list of FREE workshops, classes, mentoring, and health coaching led by licensed clinicians and health educators in the University Health Center. Additional resources can be accessed through the UGA App.

FERPA Notice

The Federal Family Educational Rights and Privacy Act (FERPA) grants students certain information privacy rights. See the registrar's explanation [here](https://osas.franklin.uga.edu/ferpa-and-privacy) (<https://osas.franklin.uga.edu/ferpa-and-privacy>). FERPA allows disclosure of directory information (name, address, telephone, email, date of birth, place of birth, major, activities, degrees, awards, prior schools), unless the following [form](https://reg.uga.edu/_resources/documents/imported/FERPARequestForRestriction.pdf) (https://reg.uga.edu/_resources/documents/imported/FERPARequestForRestriction.pdf) is submitted to the Registrar's Office.

Inclusion and Identity

This class strives to promote a sense of community and a welcoming space for a diversity of ideas, perspectives, and experiences. All members of our classroom community, including all students and the instructor, should strive to respect one another's differences of identity, e.g., religion, race, ethnicity, sexual orientation, and gender. UGA's educational platform provides a roster of legal student names for the instructor. Students are

encouraged to reach out to the instructor early in the semester if they wish to be addressed by an alternate name or gender pronoun.

Prohibition on Recording Lectures

In the absence of written authorization from the UGA Disability Resource Center, students may not make a visual or audio recording of any aspect of this course. Students who have a recording accommodation agree in writing that they:

- Will use the records only for personal academic use during the specific course.
- Understand that faculty members have copyright interest in their class lectures and that they agree not to infringe on this right in any way.
- Understand that the faculty member and students in the class have privacy rights and agree not to violate those rights by using recordings for any reason other than their own personal study.
- Will not release, digitally upload, broadcast, transcribe, or otherwise share all or any part of the recordings. They also agree that they will not profit financially and will not allow others to benefit personally or financially from lecture recordings or other course materials.
- Will erase/delete all recordings at the end of the semester.
- Understand that violation of these terms may subject them to discipline under the Student Code of Conduct or subject them to liability under copyright laws.

Coronavirus Information

- **Face Coverings:** Following guidance from the University System of Georgia, face coverings are recommended for all individuals while inside campus facilities.

- **How can I obtain the COVID-19 vaccine?** University Health Center is scheduling appointments for students through the UHC Patient Portal (https://patientportal.uhs.uga.edu/login_dualauthentication.aspx). (https://patientportal.uhs.uga.edu/login_dualauthentication.aspx.) Learn more here – <https://www.uhs.uga.edu/healthtopics/covid-vaccine>. (<https://www.uhs.uga.edu/healthtopics/covid-vaccine>.)

The Georgia Department of Health, pharmacy chains and local providers also offer the COVID-19 vaccine at no cost to you. To find a COVID-19 vaccination location near you, please go to: <https://georgia.gov/covid-vaccine>. (<https://georgia.gov/covid-vaccine>.) In addition, the University System of Georgia has made COVID-19 vaccines available at 15 campuses statewide and you can locate one here: <https://www.usg.edu/vaccination> (<https://www.usg.edu/vaccination>)

- **What do I do if I have symptoms?** Students showing COVID-19 symptoms should self-isolate and schedule an appointment with the University Health Center by calling 706-542-1162 (Monday-Friday, 8 a.m.-5p.m.). Please DO NOT walk-in. For emergencies and after-hours care, see, <https://www.uhs.uga.edu/info/emergencies>. (<https://www.uhs.uga.edu/info/emergencies>.)
- **What do I do if I test positive for COVID-19?** If you test positive for COVID-19 at any time, you are required to report it through the DawgCheck Test Reporting Survey. We encourage you to stay at home if you become ill or until you have excluded COVID-19 as the cause of your symptoms. UGA adheres to current Georgia Department of Public Health (DPH) quarantine and isolation guidance and requires that it be followed. Follow the instructions provided to you when you report your positive test result in DawgCheck.
- **Guidelines for COVID-19 Quarantine Period (As of 8/1/21; follow DawgCheck or see DPH website for most up-to-date recommendations):**

Students who are fully vaccinated do not need to quarantine upon exposure unless they have symptoms of COVID-19 themselves. All others should follow the Georgia Department of Public Health (DPH) recommendations:

Students who are not fully vaccinated and have been directly exposed to COVID-19 but are

not showing symptoms should self-quarantine for 10 days. Those quarantining for 10 days must have been symptom-free throughout the monitoring period and continue self-monitoring for COVID-19 symptoms for a total of 14 days. You should report the need to quarantine on DawgCheck (<https://dawgcheck.uga.edu/>) (<https://dawgcheck.uga.edu/>), and communicate directly with your faculty to coordinate your coursework while in quarantine. If you need additional help, reach out to Student Care and Outreach (sco@uga.edu) for assistance.

Students, faculty and staff who have been in close contact with someone who has COVID-19 are no longer required to quarantine if they have been fully vaccinated against the disease and show no symptoms.

What if my health or circumstances makes attending class exceed my risk tolerance concerning COVID-19?

To the best of my ability to understand, UGA has transitioned the risk of contracting COVID-19 to the same risk as contracting any illness from attending class. Therefore, preemptive accommodations cannot be made to allow students to attend class who are not actively ill. At a maximum, I can deliver two class meetings in a modality other than entirely in person. A student seeking an accommodation due to health risks from COVID-19 should contact Student Care & Outreach.

- **Monitoring conditions:** Note that the guidance referenced in this syllabus is subject to change based on recommendations from the Georgia Department of Public Health, the University System of Georgia, or the Governor's Office or. For the latest on UGA policy, you can visit coronavirus.uga.edu.

ASSIGNMENTS

Your final grade will be based on the following (DataCamp extra credit excluded):

Assignment	Percent Weight
R Chapters (9)	10

R Labs (10)	10
Problem Sets (4)	50
Midterm Exam	15
Final Exam	15

Grading Scale

Letter Grade	Percentage
A	93.00-100
A-	90.00-92.99
B+	87.00-89.99
B	84.00-86.99
B-	80.00-83.99
C+	77.00-79.99
C	73.00-76.99
C-	70.00-72.99
D	65.00-69.99
F	64.99 and below
I	Incomplete
