PADP 8140 – Advanced Topics in Statistical Modeling
Fall 2021

Course Description  I will help you develop a deeper understanding of key concepts in statistical modeling. We will proceed on three tracks:

• A discussion of likelihood theory and maximum likelihood estimation.
• A discussion of limited dependent and categorical variables.
• A discussion of modern statistical computing using Stata.

Required Materials

• We will read selections from a number of texts.
• I will distribute other readings at https://uga.view.usg.edu. Use your UGA myID for access.
• Buy your own copy of Stata for your own machine. Or use http://vlab.uga.edu.

Evaluation

40%  Exercises.
40%  Course project.
20%  Class participation and presentations.

An A will be awarded to anyone with 93 or more points, an A- to those with 90-92 points, a B+ to those with 87-89 points, a B to those with 83-86 points, a B- to those with 80-82 points, a C+ to those with 77-79 points, a C to those with 73-76 points, a C- to those with 70-72 points, a D to those with 60 to 69 points, and an F to anyone receiving fewer than 60 points in the course.

Teaching Approach  I assume you have a strong knowledge of the material offered in PADP 8130, including basic probability theory, statistical inference, hypothesis testing, and least squares estimation. I also assume you have a working knowledge of calculus and linear algebra.

We expect to meet weekly for a lecture-based workshop. We will start with covering the mathematics necessary for understanding MLE theory and mechanics. We will cover some of this material, but students must also undertake on their own to understand this.

After this, we will address MLE theory and mechanics, and then review models that are estimated using ML. I will lecture on the key material from the readings; I will try to answer all student questions. The bulk of learning in the course, however, will take place outside of the classroom. Students will complete regular assignments and turn them in to be graded. The exercise will be delivered on Wednesday and due back the following Wednesday.

This term our focus is on models for categorical and limited dependent variables. For each week, I have chosen basic readings on the models.
The last formal requirement for the course is a course project; each of you will choose your own topic for your paper. Your goal is to produce a manuscript that you can submit for publication, using a model (or models) discussed in the course. I will be available throughout the semester to discuss modeling, specification, and software issues with each student. You should write on a topic close to your substantive interests. You can recycle parts of papers from other classes only with my permission.

**Class Attendance/Participation** Students are expected to participate by asking questions and answering inquiries raised in class. Keep in mind that it is difficult to participate without being present. To adequately prepare for class, you should complete all assigned readings by the dates indicated on the course schedule. Not all assigned readings may be discussed in class; nonetheless you should read them.

All students are expected to behave professionally in this class. You are responsible for all material in the readings and lectures, even if you are unable to attend class. You are responsible for all specific deadlines or dates posted on the syllabus or on the class website. Assignments must be completed on time.

Please follow UGA’s required procedures regarding class attendance during the current coronavirus epidemic. Our current class size should allow all students to attend class, given current guidelines, if you feel safe doing so. Please email me to discuss any missed classes. I will post the printed lecture online; I will not record the lecture.

**Prohibition on Recording Lectures** In the absence of written authorization from the UGA Disability Resource Center, students may not make a visual or audio recording of any aspect of this course. Students who have a recording accommodation agree in writing that they:

- Will use the records only for personal academic use during the specific course.
- Understand that faculty members have copyright interest in their class lectures and that they agree not to infringe on this right in any way.
- Understand that the faculty member and students in the class have privacy rights and agree not to violate those rights by using recordings for any reason other than their own personal study.
- Will not release, digitally upload, broadcast, transcribe, or otherwise share all or any part of the recordings. They also agree that they will not profit financially and will not allow others to benefit personally or financially from lecture recordings or other course materials.
- Will erase/delete all recordings at the end of the semester.
- Understand that violation of these terms may subject them to discipline under the Student Code of Conduct or subject them to liability under copyright laws.

**Use of Software** I use Stata in this course. However, some students may want to learn an extra statistical software package. You may use any extra time for the following:

- Read any relevant sections of this open access textbook:
I encourage you to learn a statistics package like R if you have time and energy. However, my first commitment is to Stata. For this reason, I will not devote time in class to covering R, helping with installs, etc.

Miscellaneous  
No “extra credit” will be assigned in this course under any circumstances. Keep in mind that final grades may only be changed in the event of a clerical error (e.g., points summed incorrectly). Also, for privacy reasons, information pertaining to course grades cannot be discussed over the telephone or via email. A final grade of “Incomplete” will only be given in this course under extraordinary circumstances and is solely at the discretion of the instructor. The course syllabus is a general plan for the course; deviations announced to the class by the instructor may be necessary. Please silence devices while in class. Devices and laptops may only be used in-class with my permission. I accept late work after the due date only by prior arrangement. You must type any grade appeals and attach supplemental information as appropriate.

Instructor Availability  
If you would like to speak with me outside of class, feel free to email me to arrange a meeting. Occasionally I have meetings during the day and may be unavailable. To ensure that I am available on a given day, email me at least 24 hours in advance to set a specific time to meet.

Special Needs and Academic Honesty  
Students with special needs that require accommodation should notify the Office for Disability Services and me as soon as possible so the appropriate arrangements can be made. All information as well as documentation is considered confidential. All academic work must meet the standards contained in “A Culture of Honesty.” Students are responsible for informing themselves about those standards before performing any academic work. The link to more detailed information about academic honesty can be found at: http://www.uga.edu/honesty/ahpd/culture_honesty.htm.

Religious Holidays  
Students who are absent from academic or social activities because of religious observances will not be penalized. If you desire to be excused from class to observe a religious holiday, notify me in advance. You are still responsible for any material covered during the excused absence, but will be permitted a reasonable amount of time to make up any work missed. If an event is scheduled during the class at which you are excused for a religious observance, you should make arrangements with me as soon as possible for an alternate time or be given a comparable assignment.

Mental Health and Wellness Resources:
• If you or someone you know needs assistance, you are encouraged to contact Student Care
and Outreach in the Division of Student Affairs at 706-542-7774 or
visit [https://sco.uga.edu](https://sco.uga.edu). They will help you navigate any difficult circumstances you may be
facing by connecting you with the appropriate resources or services.
• UGA has several resources for a student seeking mental health services
([https://www.uhs.uga.edu/bewelluga/bewelluga](https://www.uhs.uga.edu/bewelluga/bewelluga)) or crisis support
([https://www.uhs.uga.edu/info/emergencies](https://www.uhs.uga.edu/info/emergencies)).
• If you need help managing stress anxiety, relationships, etc., please visit BeWellUGA
([https://www.uhs.uga.edu/bewelluga/bewelluga](https://www.uhs.uga.edu/bewelluga/bewelluga)) for a list of FREE workshops, classes,
mentoring, and health coaching led by licensed clinicians and health educators in the
University Health Center.
• Additional resources can be accessed through the UGA App.

Campus resources: There are many resources on campus that offer support during your time here
at UGA. They are here for you, so please take advantage of them.

Academic support

Preferred Name and Pronouns  Professional courtesy and sensitivity are especially important with respect to individuals and topics dealing with differences of race, culture, religion, politics, sexual orientation, gender, gender variance, and nationalities. Class rosters are provided to the instructor with the student’s legal name. I am eager to address you by your preferred name and/or gender pronoun. Please advise me of this preference early in the semester so that I may make appropriate changes to my records.

CORONAVIRUS INFORMATION FOR STUDENTS FOR FALL 2021 CLASSES

Face coverings:

Following guidance from the University System of Georgia, face coverings are recommended for all individuals while inside campus facilities.
How can I obtain the COVID-19 vaccine?

University Health Center is scheduling appointments for students through the UHC Patient Portal (https://patientportal.uhs.uga.edu/login_dualauthentication.aspx). Learn more here – https://www.uhs.uga.edu/healthtopics/covid-vaccine.

The Georgia Department of Health, pharmacy chains and local providers also offer the COVID-19 vaccine at no cost to you. To find a COVID-19 vaccination location near you, please go to: https://georgia.gov/covid-vaccine.

In addition, the University System of Georgia has made COVID-19 vaccines available at 15 campuses statewide and you can locate one here: https://www.usg.edu/vaccination

What do I do if I have COVID-19 symptoms?

Students showing COVID-19 symptoms should self-isolate and schedule an appointment with the University Health Center by calling 706-542-1162 (Monday-Friday, 8 a.m.-5 p.m.). Please DO NOT walk-in. For emergencies and after-hours care, see, https://www.uhs.uga.edu/info/emergencies.

What do I do if I test positive for COVID-19?

If you test positive for COVID-19 at any time, you are required to report it through the DawgCheck Test Reporting Survey. We encourage you to stay at home if you become ill or until you have excluded COVID-19 as the cause of your symptoms. UGA adheres to current Georgia Department of Public Health (DPH) quarantine and isolation guidance and requires that it be followed. Follow the instructions provided to you when you report your positive test result in DawgCheck.

Guidelines for COVID-19 Quarantine Period (As of 8/1/21; follow DawgCheck or see DPH website for most up-to-date recommendations)

Students who are fully vaccinated do not need to quarantine upon exposure unless they have symptoms of COVID-19 themselves. All others should follow the Georgia Department of Public Health (DPH) recommendations:

Students who are not fully vaccinated and have been directly exposed to COVID-19 but are not showing symptoms should self-quarantine for 10 days. Those quarantining for 10 days must have been symptom-free throughout the monitoring period and continue self-monitoring for COVID-19 symptoms for a total of 14 days. You should report the need to quarantine on DawgCheck (https://dawgcheck.uga.edu/), and communicate directly with your faculty to coordinate your coursework while in quarantine. If you need additional help, reach out to Student Care and Outreach (sco@uga.edu) for assistance.

Students, faculty and staff who have been in close contact with someone who has COVID-19 are no longer required to quarantine if they have been fully vaccinated against the disease and show no symptoms.

Well-being, Mental Health, and Student Support
If you or someone you know needs assistance, you are encouraged to contact Student Care & Outreach in the Division of Student Affairs at 706-542-7774 or visit https://sco.uga.edu/. They will help you navigate any difficult circumstances you may be facing by connecting you with the appropriate resources or services.

UGA has several resources to support your well-being and mental health: https://well-being.uga.edu/

Counseling and Psychiatric Services (CAPS) is your go-to, on-campus resource for emotional, social and behavioral-health support: https://caps.uga.edu/, TAO Online Support (https://caps.uga.edu/tao/), 24/7 support at 706-542-2273. For crisis support: https://healthcenter.uga.edu/emergencies/.

The University Health Center offers FREE workshops, classes, mentoring and health coaching led by licensed clinicians or health educators: https://healthcenter.uga.edu/bewelluga/

Monitoring conditions:

Note that the guidance referenced in this syllabus is subject to change based on recommendations from the Georgia Department of Public Health, the University System of Georgia, or the Governor's Office or. For the latest on UGA policy, you can visit coronavirus.uga.edu.
Schedule of Topics:

- Assigned readings are to be completed by the dates listed below
- All readings (other than Long and Freese) will be delivered via https://uga.view.usg.edu
- See the course website for week-by-week details on the readings

Week 1 (8/18 – Introduction and Overview)

Week 2 (8/25 – Review, Exercise 1)

Week 3 (9/1 – Review, Exercise 2)

Week 4 (9/8 – MLE Theory and Mechanics, Exercise 3)

Week 5 (9/15 – MLE Theory and Mechanics)

Week 6 (9/22 – Logit/Probit, Exercise 4)

Week 7 (9/29 – Logit/Probit Interpretation, Exercise 5)

Week 8 (10/6 – Alternatives to Logit/Probit, Exercise 6)

Week 9 (10/13 – Ordered, Exercise 7)

Week 10 (10/20 – Nominal, Exercise 8)

Week 11 (10/27 – Bivariate/Multivariate/SUR, Exercise 9)

Week 12 (11/3 – Truncation/Censoring/Selection, Exercise 10)

Week 13 (11/10 – Paper Workshop, Exercise 11)

Week 14 (11/17 – Paper Workshop, Exercise 12)

Week 15 (12/1 – Presentations. Deliverables due.)
