

## **2020–2021 MPA INTERNSHIP SHEET**

“I’ve been interning with the Atlanta UASI (Urban Area Security Initiative) since the end of June, and it has been an awesome experience. This internship is intended to help them prepare for the stakeholder engagement process for a regional family assistance plan in case of an emergency situation in the Atlanta region. I did a lot of research on best practices for family assistance centers and emergency management more generally, as well as identifying which stakeholders among the community could be good partners in this planning process or in the actual implementation should it be needed.”
