Office: CITS, Room 609

Office Hours: Wednesdays 12:45-2:30pm, by appointment

Course Overview:

Welcome to the Center for International Trade and Security's (CITS) Richard B. Russell Security Leadership Program (SLP). As a member of the SLP you are joining a program with a rich tradition in training future leaders in national and international security. Throughout the year you will have the opportunity to develop your writing, policy analysis, and public speaking skills, and conduct independent research.

Beyond the skills training, a significant focus of the SLP is the community you will build with the 15 members of your cohort. These colleagues will become friends that you will stay connected to long after you leave UGA. You'll also join an esteemed group of SLP alumni who have gone on to pursue advanced degrees in security studies and careers working in government, particularly in the CBRN/non-proliferation field, as well as in corporations, journalism, law, and NGOs. Throughout this year you'll have the opportunity to get to know some of these alumni through "visits" and most significantly, through the spring break trip to Washington, DC.

This practicum course will be run as a seminar, which means the focus will be on discussion among the participants, not lectures by the instructor. Unlike a typical International Relations course in security studies where you would examine the academic field, our focus will be on the *practice* of decision making around security issues and the evaluation of policies. As you may note, many of the "readings" on the syllabus are not academic readings but are instead podcasts, videos, newspaper articles, and blogs. I've selected materials that are both informative and provocative to spark discussions. You will often do extensive research and reading beyond what's assigned on the syllabus to complete your assignments and are expected to stay up to date on national and international security news. While most students in the program are majoring in International Affairs, the SLP is strengthened by the participation of students from majors outside of SPIA including, but not limited to, psychology, computer science, and economics. The skills and knowledge you acquire in the SLP are intended to compliment your existing strengths, irrespective of your major, and prepare you for a career in national/international security.

The culmination of the course is the U.S. National Security Council simulation, which will take place over several weeks in November. Through the simulation you'll be able to put into practice the skills you've developed, challenge each other, and try to find viable policy solutions to some of the most intractable security issues faced by the United States.

Student Learning Outcomes:

By the end of this course, you will be able to:

- Present complex national and international security issues in a brief format to various audiences with different knowledge levels
- Evaluate appropriate and effective tools available to policymakers for dealing with security issues
- Analyze the implications of different policy options available for addressing national and international security issues to create policy recommendations
- Model the professional behavior of policymakers
- Delegate and work alongside peers in creating security-related deliverables (i.e. policy briefs, policy recommendations, NSS, grant proposal).

Course Requirements:

- **Readings:** There is no textbook for this course. All readings will be posted on the class ELC page. Readings are to be completed prior to class. Should you fail to complete the readings it will be evident by your (lack of informed) participation in class discussions.
 - ***You are required to keep up with current events* (which I'm sure you already do, that's why you're here... but more on that below).

On occasion an article relevant to the topic we are covering will be published and I will assign it on short notice. In that case I will send out a message to the class using the "ANNOUNCEMENTS" section of the class ELC page. ****PLEASE REGISTER FOR ANNOUCEMENT NOTIFICATIONS!**

- To register for "Announcement Notifications" click on your name in the upper right-hand corner of the class ELC page > notifications > scroll down to "instant notifications > check the boxes for "Announcements"
- We will also have a GroupMe for more urgent messaging.
- **Grading:** Your final grade will be determined by the following assessments:
 - Writing Portfolio = 40% (10% x 4 assignments)
 - 1 Memo (10%)
 - 2 Policy Briefs (20%)
 - 1 Group Policy Brief (10% - 5% for brief; 5% peer evaluation/reflection)
 - NSC Simulation = 25%
 - Policy analysis of 3 crises = 10%
 - Participation = 15% (Asking/answering questions in meetings; Contributions to group National Security Strategy; Providing timely and accurate follow-up memos; Journal documenting contributions; Peer evaluations)

- Engagement = 20% (daily participation in class discussions, ELC discussion assignments/homework, engagement at alumni/guest visits, asking questions in briefings, **At least 3** CITS events during semester w/ reflection on participation in notebook)
- Oral Briefing = 5%
- Nukes Quiz = 5%
- Grant Proposal = 5%

Letter grades correspond to the following 0-100 scale:

94-100 A	74-76 C
90-93 A-	70-73 C-
87-89 B+	67-69 D+
84-86 B	64-66 D
80-83 B-	60-63 D-
77-79C+	00-59 F

- **Participation & Active Learning Pedagogy** – As a practicum course you will be learning and practicing the skills necessary for a career in national/international security. Students’ learning outcomes are centered in the design of this course; all activities and assignments are designed to facilitate your skills building and to give you the opportunity to reflect upon what you are learning. This is the essence of active learning. Research shows that active learning increases students’ long-term retention of information, improves conceptual understanding, and leads to better writing and critical thinking skills. There will be an active learning course evaluation around the middle of the semester and a written evaluation at the end of the semester, separate from the normal end-of-semester course evaluations.
 - It’s assumed that as a member of the SLP you are enthusiastic and eager to discuss security issues with your colleagues. You’ll be expected to actively engage in a variety of ways, including:
 - Daily class discussions of readings and security-related news
 - Preparing questions for SLP alumni and other distinguished visitors, and attending CITS events (i.e. Global Decisions and Signature Lectures), including **at least 3 reflections** on participation in CITS events in your SLP reflection notebook
 - Class Discussion Assignments – there will be several discussion assignments/homework assignments throughout the semester, graded on completion
 - Graded Assignments (e.g. Writing portfolio, briefing, NSC simulation, group grant proposal)
- **Writing Portfolio** - One of the most important skills that we will focus on in this course is policy writing. You’ll gain experience writing various types of policy memos as assignments, and then you’ll write them in real time during the NSC simulation. Details on different types of policy writing and the parameters for each assignment will be given in class.

- **Oral Briefing** - Each student will brief the group on a policy issue. This exercise will give you practice at this important skill and allow you to receive feedback before you do it as part of your regular NSC meetings. Each student will have 2 minutes MAX to brief the class, followed by 4 minutes of Q&A.
- **NSC Simulation** – The capstone of this course is a two-week simulation of the US National Security Council (NSC). Each of you will be assigned a role on the NSC and will produce policy recommendations for the President based on several real-to-life crises. In addition to the memos prepared for the given crises, you can expect to write additional memos as requested by your colleagues and provide regular briefings the NSC on your area(s) of expertise. The entire NSC will contribute to writing a National Security Strategy that will be published on the SLP website. Details on the NSC simulation will be given later in the semester.
- **Grant Proposal** – grant writing is an important skill that many of you will encounter in your careers and is rarely taught to undergrads. But lucky for you, we will discuss the key elements of a grant and your final assignment in this course will be a group grant proposal. Most excitingly, your grant proposal may shape the future of this program and one group will be awarded a scholarship for their proposal. Details on the grant writing assignment will be provided later in the semester.
- **Professionalization Days and Alumni Visits** - a key feature of the SLP is the opportunity to connect with professionals in the security field. Alumni “visits” (sometimes virtual) will allow you to learn about different career opportunities and build your professional network. We will also have several professionalization days throughout the year when we focus on issues related to careers in national security including resume and cover letter writing, internships and jobs, applying to graduate school, and publishing/presenting your research. There will also be a several CITS events throughout the year that you are expected to attend to act as an ambassador of the center.

Attendance

I am committed to making this an academically rigorous program, while also prioritizing compassion and the health of all of us in the room. The COVID-19 pandemic may create extenuating circumstances for many students. It is crucial that you understand the following:

- **IF YOU DO NOT FEEL WELL, DO NOT COME TO CLASS!**
- I will take attendance every day and expect that you’ll be in class. **If you are going to be absent, please send me an email.** More than 3 absences without an explanation will lead to a deduction in your participation grade.
- **Note:** If you are out for a prolonged period please stay in contact with your professors. I encourage you to reach out to Student Care and Outreach (sco@uga.edu) for assistance. They can contact all your professors on your behalf.
- **We will have a collaborative notes G-doc available on ELC so you can keep up with what you missed when absent.** I also encourage you to exchange contact information with at least two students in this class. Once you’re feeling better, please make an appointment to meet with me during office hours to answer any remaining questions.

AI Tools Policy:

I'm open to you using AI in this course if you adhere to the following 3 principles:

- **Originality of YOUR Ideas.** It is most important that the ideas and analysis presented are your own. AI may be useful in this course for editing purposes, but if you use it as your starting point - if it is generating the ideas and analysis - then you are not developing the skills at the heart of this pre-professional program. Do not undermine yourself and weaken your skills development for the sake of a memo grade. It's not worth it.
- **Openness.** If using AI, you must be open about doing so and document your use. **Using AI without documenting that you did so will be considered a violation of the Honor Code.** The final page of each assignment should include, when relevant, a list of the ways in which AI was employed, including: (1) the site used, (2) specific prompt/commands used (3) any changes to those prompts/commands, explaining why the changes were made and what the effect was on the output. As a course which centers Active Learning, it's important for you to have space to reflect on when AI is (not) helpful.
- **Referencing and validating.** You take full responsibility for any AI-generated information included in your work. This means all ***ideas*** must be attributed to an actual source (not AI) with a citation that you have checked, and facts must be true and cited. AI can present some issues that you should be aware of before using it. (1) All AI relies on existing language/materials, which can be out of date, so be sure you know the most up-to-date information on a situation. Outdated information will lead to poor policy analysis. (2) AI can "hallucinate" by misattributing a reference (so be sure to go to the original source) or may not cite sources (but you must). (3) AI can produce biased outputs as it relies on data that is not fully representative, especially of marginalized communities. You will be held accountable for the information you provide and thus must validate all information included in your work.

Other important information:

- **Current Events:** Students are **REQUIRED** to stay up to date on world politics for class discussions. I suggest that you skim a major newspaper, such as the *New York Times*, *Wall Street Journal*, *Washington Post*, or *The Guardian* (UK) on a **daily basis**.
 - **Tip:** I strongly suggest linking your web browser home page to an international news source.
 - ****You should have the headlines of the day automatically emailed to you from the Council of Foreign Relations (www.cfr.org) (for those wanting even more natsec news, I suggest the daily email from Just Security (<https://www.justsecurity.org/>)).**
- **Communication and Email:** I will keep you updated about the course and any changes to the syllabus through the "ANNOUNCEMENTS" board on the class ELC page. ****PLEASE REGISTER FOR ANNOUNCEMENT NOTIFICATIONS!**
 - Again, to sign up for Announcement Notifications: your name on the class ELC page > Notifications > Scroll to "Instant Notifications" > Announcements
 - When emailing me please only use your UGA email account and include your course number in the subject line. In most cases I will respond to emails within 24 hours. Importantly, before you email me **please check the syllabus** and the **Announcements** posted on ELC to be sure that your question has not been previously addressed.

- *A note on etiquette:* please use **appropriate salutations** including **my name** in the opening (**NOT** Miss/Ms./Mrs. Gallagher!) and your name in the closing. (Hint: you can't go wrong with "Dear Professor Gallagher").
 - For further guidance see: <http://www.wikihow.com/Email-a-Professor>.
 - There will also be an **SLP GroupMe** for quick correspondences
- **Office Hours** – Office hours are **STUDENT HOURS!** This is the time to ask questions about class assignments, the major, my 2 cents on what you should do with your life, get recommendations for good food in Athens, etc. **The link to schedule an office hours meeting is on the class ELC page.**
 - **Academic Dishonesty** – As a University of Georgia student, you have agreed to abide by the University's academic honesty policy, "A Culture of Honesty," and the Student Honor Code. All academic work must meet the standards described in "A Culture of Honesty" found at: <http://www.uga.edu/honesty>. Lack of knowledge of the academic honesty policy is not a reasonable explanation for a violation. Any student caught cheating or plagiarizing will be referred to Judicial Affairs, as required by university policy. The most common issue of academic dishonesty I have come across is plagiarism. To be clear, plagiarism is copying from any source material (direct or paraphrasing of ideas), published or unpublished (this includes Wikipedia!), without giving proper credit. I will post a link to the Chicago Manual of Style citation format on ELC.
 - **Students with Disabilities:** UGA is committed to providing equal access to academic programs and university-administered activities and reasonable modifications to students with disabilities. Students in need of academic accommodations need to request such services from the Disability Resource Center located at 114 Clark Howell Hall (for more information visit www.drc.uga.edu) and should make an appointment to see me with their appropriate paperwork from the DRC within the **first two weeks** of classes.
 - UGA's code of conduct protects student privacy and intellectual property and thus **prohibits recording and digital release of classroom lectures and conversations unless a student has an accommodation from the DRC.** Students with DRC approved accommodations for recording should make an appointment with me to discuss a plan that protects your right to privacy, that of your classmates, and everyone's intellectual property.
 - UGA has a vast array of resources to support students facing a variety of challenges. Please don't hesitate to speak with me or contact these resources directly. *Please be aware that UGA faculty and staff are obligated to report any knowledge of sexual assault/harassment and/or relationship violence to UGA's Equal Opportunity Office.* UGA's Relationship and Sexual Violence Prevention (info below) can speak to students confidentially.
 - **Office of Student Care & Outreach** (coordinate assistance for students experiencing hardship/unforeseen circumstances) – 706-542-7774 or by email sco@uga.edu
 - **Counseling and Psychiatric Services (CAPS)** - 706-542-2273 (during regular business hours) *After Hour Mental Health Crisis:* 706-542-2200 (UGA Police—ask to speak to the CAPS on-call clinician)
 - **Relationship and Sexual Violence Prevention (RSVP)** – 706-542-SAFE (The advocates at RSVP can provide students confidentiality).
 - **This syllabus is subject to change throughout the semester**
