### Course Description

This course is designed to introduce students to theories of international conflict. Political scientists developed a plethora of theories that aim to explain causes of war, its effects, and various phenomena associated with conflicts. In this course, we will learn what exactly constitutes war and how we can distinguish wars from other types of disputes. Students will be exposed to the theories of international conflict that attempt to provide comprehensive explanations for wars, as well as concrete factors that may increase the likelihood of conflict. This includes studying different levels of analysis – from international (is the world order anarchic or hierarchic?) to individual (do leaders' backgrounds determine their belligerence?). The course also covers the consequences of wars and examines whether they bring about the outcomes desired by initiators and how they affect various fields of social relationship. We will study the ideas developed by scholars and the arguments they utilize and then summarize them, provide criticism, and place them into a broader context.

### Course Objectives

The course includes assignments that require critical thinking, and students will learn to evaluate theories, arguments, findings, and empirical analyses found in the assigned readings. The course will also help students begin conceptualizing their own ideas.

By the end of the course, students will be able to:

- understand major theories of international conflict;
- describe the characteristics of different types of conflict;
- identify causes and consequences of war at different levels of analysis;
- analyze and provide reasoned critiques of ideas developed by scholarship on international conflict.

### Course Materials

There is only one textbook required for this course:

Stephen L. Quackenbush (2015). *International conflict: Logic and evidence*. CQ Press.

You can purchase it online (a used copy of the book will work perfectly) or access the online version for free via UGA library. All other required readings will be posted on ELC and/or are available via UGA Library or other resources.

### Course Requirements

- **Participation** (20% of the final grade)

Students will be required to participate in class discussions each week. The quality of each class depends on how well the students prepare for it. Students are expected to do all the readings, analyze them, share their thoughts about the assigned material, and debate the topics with colleagues. A good contribution is not limited only to thoughtful critiques of the ideas presented in the assigned readings but also includes questions to the class, as long as it helps move the discussion forward. Direct engagement in discussions will help us find what we

may otherwise miss when doing readings. Students should be familiar with contemporary international political events and are encouraged to integrate materials from outside the course in the discussion.

- **Reading presentation (20%)**

Students will sign up for certain topics to present an assigned reading in class and facilitate discussion of relevant topics by providing discussion questions to class. It will require students to evaluate strengths, weaknesses, and major contributions of a reading. Good presentations shall not simply focus on empirical and methodological aspects of the readings but must be insightful and helpful in understanding what the actual contribution of the reading is.

- **Final paper (20%)**

Students must write a final paper that will fall within one of the topics covered in class. Students will need to summarize theories and findings of relevant literature and examine the explanatory power of specific theoretical frameworks. The goal is not to simply provide a formal review of the readings but to evaluate its' strengths, weaknesses, and implications. The reviewed literature cannot be limited only to the readings provided in the syllabus – students will need to do their research and find other relevant studies in the field. Students must consult the instructor with respect to specific topics they choose before they begin working on a paper.

*Format:* font - 12 Times New Roman, double-spaced, 10-12 pages

- **Midterm exam (20%)**

Students will have one midterm exam. The exam will be administered in class via ELC and will be closed-note. It will be a combination of multiple choice, identification questions, and/or short essays.

- **Final exam (20%)**

Final exam will be held in class via ELC and will be closed-note. It will be a non-comprehensive exam except for some major topics (to be announced in class). It will be a combination of multiple choice, identification questions, and/or short essays.

### **Grading Scale**

### **Course policy and useful information**

- **Academic Honesty Policy**

As a University of Georgia student, you have agreed to abide by the University's academic honesty policy ("A Culture of Honesty") and the Student Honor Code ("I will be academically honest in all of my academic work and will not tolerate academic dishonesty of others."). All academic work must meet the standards of "A Culture of Honesty" found at <https://honesty.uga.edu/Academic-Honesty-Policy/>. These standards include, but not limited to, policies that cover plagiarism and unauthorized assistance (including assistance from AI software). Lack of knowledge of the academic honesty policy is not a reasonable explanation for a violation. Questions related to course assignments and the academic honesty policy should be directed to the instructor.

- **Students with Disabilities.**

Students with disabilities who require reasonable accommodations to participate in course activities or meet course requirements should contact the instructor and may register with the Disability Resource Center. They can be reached by visiting Clark Howell Hall, calling 706-542-8719 (voice) or 706-542-8778 (TTY), or by visiting the Disability Resource Center.

- **Make-up procedures for assignments**

Failure to complete any course assignment on time will result in a failing grade (0). Make-up options may only be offered in case of documented emergencies and require prior approval of the instructor.

- **UGA Well-being Resources**

UGA Well-being Resources promote student success by cultivating a culture that supports a more active, healthy, and engaged student community.

Anyone needing assistance is encouraged to contact Student Care & Outreach (SCO) in the Division of Student Affairs at 706-542-8479 or visit [sco.uga.edu](http://sco.uga.edu). Student Care & Outreach helps students navigate difficult circumstances by connecting them with the most appropriate resources or services. They also administer the Embark@UGA program which supports students experiencing, or who have experienced, homelessness, foster care, or housing insecurity.

UGA provides both clinical and non-clinical options to support student well-being and mental health, any time, any place. Whether on campus, or studying from home or abroad, UGA Well-being Resources are here to help.
