RESEARCH INTERESTS

American Politics, Political Participation, Political Behavior, Political Psychology, Election, Voting Behavior, Survey, Public Opinion, Media

EDUCATION

University of Georgia (UGA) (expected) Sep. 2029
PhD Political Science Athens, GA
Major field: American Politics
Minor field: Political Methodology

New York University (NYU) Sep. 2020
MA Politics New York, NY
Major field: American Politics
Second field: Political Economy
GPA: 3.463/4.0

State of University New York at Stony Brook (SUNY) Aug. 2015
BA Major in Political Science Stony Brook, NY
Minor in Applied Mathematics and Statistics
GPA: 3.63/4.0

Chungnam National University (CNU) Feb. 2016
BA Humanities and Social Sciences Daejeon, South Korea
GPA: 4.236/4.5

- **Note:** I transferred to SUNY through the dual degree program after two and a half years at CNU. I received two bachelor's degrees at two universities.
-

RESEARCH PAPERS

“How Voters Turn into Supporters of Hopeless Candidates: The 2012 and 2017 Presidential Election in South Korea”, Master's Thesis, NYU, Supervised by Professor Hye Young You

- Hypothesis: If the probability of being decisive is substantially low, centrists are more likely to cast an expressive vote than extremists (In this paper, voting for minor candidates is considered an act of expressive voting)
- Data: Survey data on voters' perceptions of the 18th and 19th Korean presidential elections conducted by the Korean Social Science Data Center
- Method: Ran multivariable logistic regressions using R, presented results using LaTeX
- Result: In the 19th presidential election held after impeachment, centrist voters are more likely to vote for minor candidates than extremist voters

“Social Media As a Channel for Sharing Information about Politics”, Final project in *Social Survey in Contemporary Society*, SUNY, Supervised by Professor Michael Peress

- Conducted research in order to answer the research question: “Can social media be an effective channel for sharing information and opinions, or debating about politics?”

- Method: Designed own questionnaire for a survey, conducted the survey through Mechanical Tuck with 221 survey samples, and analyzed the data and presented the findings using SPSS
- Result: Found that 81% of the respondents used social networking service, and based on a 1-7 scale of political interest, the social media users interested in politics participated in social media activities related to politics more than those who were not very interested in politics

WORK EXPERIENCE

Flockstory

Content Developer

May 2021-Apr. 2023

Gyeonggi-do, South Korea

Project Title: AI Intelligent English Conversation 8-Step Level Assessment and Personalized Content

Recommendation Application (national subsidy program)

- Preliminary Research: Investigated more than 13 competitor English education apps, analyzed their learning types, features, and limitations of each app
- Screen Design and Learning-Module Development: Sketched main/other screens and UI/UX designs for 37 learning modules, wrote proposal for design requests, and finalized feedback on design draft
- Data and Resource Tasks: Data refinement work (programming language: Java)
- Communication: Recorded and shared meeting contents, assigned the task to each team, and set/modified monthly expected workloads
- Research Note: Documented the entire progress of the project for submission

POL-UA 812: Introduction to Political Psychology (Professor Eric Dickson)

Grader

Fall 2018

NYU, New York, NY

- Assisted the class of 80 students and proctored a midterm exam
- Graded 162 essays for 3 assignments
 - Assignment 1: Compare and analyze the differences in left/right-of-center views on issues in two blogs
 - Assignment 2: Design your own political psychology experiment, including motivation, research questions, treatments, measurements, subject pool, and potential shortcoming
 - Assignment 3: Analyze a potential conflict between countries using idea from political psychology

UNIV. INVOLVEMENT

Foreign and Native Students (FaNS)

Founder and Vice President

Nov. 2013- May 2015

SUNY, Stony Brook, NY

- Founded and led FaNS, the cultural exchange social group in which native and foreign students had conversations or debates on familiar topics once a week for sharing culture and perspectives, improving communication skills
- Managed and promoted the group; for example, coordinated places, selected weekly topics, and posted announcements and group activities on Facebook
