Office: BB-CITS, Room 609

Office Hours: TBD, by appointment only (link on ELC)

Course Overview:

Welcome to the Benson-Bertsch Center for International Trade and Security's (BB-CITS) Richard B. Russell Security Leadership Program (SLP). As a member of the SLP you are joining a program with a rich tradition in training future leaders in national and international security. Throughout the year you will have the opportunity to develop your policy writing, analysis, and public speaking skills, and conduct independent research.

Beyond the skills training, a significant focus of the SLP is the community you will build with the 15 members of your cohort. These colleagues will become friends that you will stay connected to long after you leave UGA. You'll also join an esteemed group of SLP alumni who have gone on to pursue advanced degrees in security studies and careers working in government, particularly in the CBRN/non-proliferation field, as well as in corporations, journalism, law, and NGOs. Throughout this year you'll have the opportunity to get to know some of these alumni through visits and most significantly, through the spring break trip to Washington, DC.

This practicum course is an active learning seminar, which means the focus will be on discussion and application among the participants, not lectures by the instructor. Unlike a typical International Relations course in security studies where you would examine the academic field, our focus will be on the *practice* of decision making around security issues and the evaluation of policies. As you may note, many of the "readings" on the syllabus are not academic readings but are instead podcasts, videos, newspaper articles, and blogs. I've selected materials that are both informative and provocative to spark discussions. You will often do extensive research and reading beyond what's assigned on the syllabus to complete your assignments and are expected to stay up to date on national and international security news. While most students in the program are majoring in International Affairs, the SLP is strengthened by the participation of students from majors outside of SPIA including, but not limited to, psychology, computer science, and economics. The skills and knowledge you acquire in the SLP are intended to compliment your existing strengths, irrespective of your major, and prepare you for a career in national/international security.

The culmination of this half of the program is the U.S. National Security Council simulation, which will take place over several weeks in April. Through the simulation you'll be able to put into practice the skills you've developed, challenge each other, and try to find viable policy solutions to some of the most intractable security issues faced by the United States.

Student Learning Outcomes:

By the end of this course, you will be able to:

- Present complex national and international security issues in a brief format to various audiences with different knowledge levels
- Evaluate appropriate and effective tools available to policymakers for dealing with security issues
- Analyze the implications of different policy options available for addressing national and international security issues to create policy recommendations
- Model the professional behavior of policymakers
- Delegate and work alongside peers in creating security-related deliverables (i.e. policy briefs, policy recommendations, NSS, grant proposal)

Course Requirements:

- **Readings:** There is no textbook for this course. All readings will be posted on the class ELC page. Readings are to be completed prior to class. Should you fail to complete the readings it will be evident by your (lack of informed) participation in class discussions.
 - ***You are required to keep up with current events* (which I'm sure you already do, that's why you're here... but more on that below).

On occasion an article relevant to the topic we are covering will be published and I will assign it on short notice. In that case I will send out a message to the class using the "ANNOUNCEMENTS" section of the class ELC page. ****PLEASE REGISTER FOR ANNOUNCEMENT NOTIFICATIONS!**

- To register for "Announcement Notifications" click on your name in the upper right-hand corner of the class ELC page > notifications > scroll down to "instant notifications" > check the boxes for "Announcements"
- We will also have a **GroupMe** for more urgent messaging.
- **Grading:** Your final grade will be determined by the following assessments:
 - Writing Portfolio = 40%
 - 2 Memos (10% x 2 = Memo 1 + Revised Memo 1) (*revision is optional – if you choose not to revise, memo 1's grade will be doubled)
 - 1 Policy Brief (10%)
 - 1 Group Policy Brief - Midterm (10% = 5% written brief; 5% peer evaluation/self-reflection)
 - NSC Simulation = 25%
 - Policy analysis of 3 crises = 10%
 - Participation = 15% (Asking/answering questions in meetings; Contributions to National Security Strategy; Providing timely and accurate follow-up memos; slack "journal" documenting contributions; Peer evaluations)

- Engagement = 20% (daily participation in class discussions, ELC discussion assignments/homework, engagement at alumni/guest visits/DC, asking questions in briefings, **at least** 3 CITS events during semester w/ reflection)
- Human Security Oral Briefing = 10% (5% brief; 5% reflection)
- Nukes Quiz = 5%

Letter grades correspond to the following 0-100 scale:

94-100 A	74-76 C
90-93 A-	70-73 C-
87-89 B+	67-69 D+
84-86 B	64-66 D
80-83 B-	60-63 D-
77-79 C+	00-59 F

- **Participation & Active Learning Pedagogy** – As a practicum course you will be learning and practicing the skills necessary for a career in national/international security. Students’ learning outcomes are centered in the design of this course; all activities and assignments are designed to facilitate your skills building and to give you the opportunity to reflect upon what you are learning. This is the essence of active learning. Research shows that active learning increases students’ long-term retention of information, improves conceptional understanding, and leads to better writing and critical thinking skills.
 - As a member of the SLP you are expected to be enthusiastic and eager to discuss security issues with your colleagues. Your engagement should include:
 - Daily class discussions of readings and security-related news
 - Preparing questions for SLP alumni and other distinguished visitors, and attending BB-CITS events (i.e. Global Decisions and Signature Lectures), including **at least 3 reflections** on participation in BB-CITS events in your SLP reflection notebook
 - Class Discussion Assignments – there will be several discussion assignments/homework assignments throughout the semester, graded on completion
 - Peer Workshopping and Collaborative Assignments
- **Writing Portfolio** - One of the most important skills that we will focus on in this course is policy writing. You’ll gain experience writing various types of policy memos as assignments, and then you’ll write them in real time during the NSC simulation. Details on different types of policy writing and the parameters for each assignment will be given in class.
- **Oral Briefing** - Each student will brief the group on a human security policy issue. This exercise will give you practice at this important skill and allow you to receive feedback before you do it as part of your regular NSC meetings. Each student will have 2 minutes MAX to brief the class, followed by 4 minutes of Q&A.
- **NSC Simulation** – The capstone of this course is a two-week simulation of the US National Security Council (NSC). Each of you will be assigned a role on the NSC and will

produce policy recommendations for the President based on several real-to-life crises. In addition to the memos prepared for the given crises, you can expect to write additional memos as requested by your colleagues and provide regular briefings the NSC on your area(s) of expertise. The entire NSC will contribute to writing a National Security Strategy that will be published on the SLP website. Details on the NSC simulation will be given later in the semester.

- **Professionalization Days and Alumni Visits** - a key feature of the SLP is the opportunity to connect with professionals in the security field. Alumni visits will allow you to learn about different career opportunities and build your professional network. We will also have several professionalization days throughout the year when we focus on issues related to careers in national security including resume and cover letter writing, internships and jobs, applying to graduate school, and publishing/presenting your research. There will also be a several BB-CITS events throughout the year, including the Global Decisions talks, that you are expected to attend and act as an ambassador of the center.
- **Attendance:** I'll take attendance each day and expect you to come to class unless you are unable to do so (i.e. you're sick, been exposed to someone who is unwell, etc.). If you do not feel well, do not come to class!
 - As this is a pre-professional program, I'll expect you to email me in advance if you will be absent.
 - As noted in your acceptance email, no more than 2 absences for university or club commitments will be excused.

AI Tools Policy:

I'm open to you using AI in this course if you adhere to the following 3 principles:

- **Originality of YOUR Ideas.** It is most important that the ideas and analysis presented are your own. AI may be useful in this course for editing purposes, but if you use it as your starting point - if it is generating the ideas and analysis - then you are not developing the skills at the heart of this pre-professional program. Do not undermine yourself and weaken your skills development for the sake of a grade. It's not worth it.
- **Openness.** If using AI, you must be open about doing so and document your use. **Using AI without documenting that you did so will be considered a VIOLATION of UGA'S Honor Code.** I will have a link to a Google form on ELC. **EACH TIME** you use AI for an assignment in this course, you **MUST COMPLETE THE GOOGLE FORM on ELC within 48 hours of submitting the assignment.** As a course that centers Active Learning, the form is there to help you (and me!) learn how AI was (or wasn't) useful for your assignment.
 - The form will ask you for (1) the site used, (2) **specific prompt/commands used** (copy and pasted) (4) a copy and paste of the output in response to your prompt and (5) any changes to those prompts/commands, explaining why the changes were made and what the effect was on the output.
- **Referencing and validating.** You take full responsibility for any AI-generated information included in your work. This means all *ideas* must be attributed to an actual source (not AI) with a citation that you have checked, and information presented as facts must be true and cited. AI can present some issues that you should be aware of before using it. (1) All AI relies on existing language/materials, which can be out of date, so be

sure you know the most up-to-date information on a situation. Outdated information will lead to poor policy analysis. (2) AI can "hallucinate" by misattributing a reference (so be sure to go to the original source) or may not cite sources (but you must). (3) AI can produce biased outputs as it relies on data that is not fully representative, especially of marginalized communities. You will be held accountable for the information you provide and thus must validate all information included in your work.

Other important information:

- **Current Events:** You're in a highly selective program for students pursuing careers in international security therefore you are **REQUIRED** and **EXPECTED** stay up to date on world politics for class discussions.
 - **Tip:** Set your web browser home page to an international news source.
 - ****You** should have the headlines of the day emailed to you from the **Council of Foreign Relations** (www.cfr.org) (for those wanting even more natsec news, I suggest the daily email from Just Security (<https://www.justsecurity.org/>)).
- **Communication and Email:** I will keep you updated about the course and any changes to the syllabus through the "ANNOUNCEMENTS" board on the class ELC page. ****PLEASE REGISTER FOR ANNOUNCEMENT NOTIFICATIONS!**
 - Again, to sign up for Announcement Notifications: your name on the class ELC page > Notifications > Scroll to "Instant Notifications" > Announcements
 - *A note on etiquette:* please use **appropriate salutations** including **my name** in the opening (**NOT** Miss/Ms./Mrs. Gallagher!) and your name in the closing. (Hint: you can't go wrong with "Dear Professor Gallagher").
 - For further guidance see: <http://www.wikihow.com/Email-a-Professor>.
 - There will also be an **SLP GroupMe** for quick correspondences.
- **Office Hours** – Office hours are **STUDENT HOURS!** This is the time to ask questions about class assignments, the major, my 2 cents on what you should do with your life, get recommendations for good food in Athens, etc. **The link to schedule an office hours meeting is on the class ELC page.**
- **Academic Honesty** – As a University of Georgia student, you have agreed to abide by the University's academic honesty policy, "A Culture of Honesty," and the Student Honor Code. All academic work must meet the standards described in "A Culture of Honesty" found at: <http://www.uga.edu/honesty>. Lack of knowledge of the academic honesty policy is not a reasonable explanation for a violation. Any student caught cheating or plagiarizing will be referred to Judicial Affairs, as required by university policy. The most common issue of academic dishonesty I have come across is plagiarism. To be clear, plagiarism is copying from any source material (direct or paraphrasing of ideas), published or unpublished (this includes Wikipedia!), without giving proper credit. I will post a link to the Chicago Manual of Style citation format on ELC.
 - ****Reminder about Generative AI tools.** The use of Generative AI tools for any assignment in this course must be documented within 48 hrs using the link on ELC (see above for details). Suspected uses of AI when the form has not been submitted will be directly reported to the Office of Academic Honesty.
- **Accessibility:** UGA is committed to providing equal access to academic programs and university-administered activities and reasonable modifications to students with disabilities. Students in need of academic accommodations need to request such services from the Accessibility and Testing office located at 114 Clark Howell Hall (for more

information visit <https://accessibility.uga.edu/>) and should make an appointment to see me with their appropriate paperwork within the **first two weeks** of classes.

- UGA's code of conduct protects student privacy and intellectual property and thus **prohibits recording and digital release of classroom lectures and conversations unless a student has an accommodation from the Accessibility & Testing office**. Students with A&T approved accommodations for recording should make an appointment with me to discuss a plan that protects your right to privacy, that of your classmates, and everyone's intellectual property.
- UGA has a vast array of resources to support students facing a variety of challenges. Please don't hesitate to speak with me or contact these resources directly. *Please be aware that UGA faculty and staff are obligated to report any knowledge of sexual assault/harassment and/or relationship violence to UGA's Equal Opportunity Office*. UGA's Relationship and Sexual Violence Prevention (info below) can speak to students confidentially.
 - **Office of Student Care & Outreach** (coordinate assistance for students experiencing hardship/unforeseen circumstances) – 706-542-7774 or by email sco@uga.edu
 - **Counseling and Psychiatric Services (CAPS)** - 706-542-2273 (during regular business hours) *After Hour Mental Health Crisis*: 706-542-2200 (UGA Police—ask to speak to the CAPS on-call clinician)
 - **Relationship and Sexual Violence Prevention (RSVP)** – 706-542-SAFE (The advocates at RSVP can provide students confidentiality).
- **This syllabus is subject to change throughout the semester**
